ALOY, MICHAEL, Biography 122
Alum
retanning of bag-tanned hides with, for bag and upper leather 288
Aluminum salts
chrome precipitation from wastewater by 233
in dry-white hide preparation from goat- and sheepskins 94
tanning with, masking in 232
tanning with titanium salts and 28

Aluminum sulfamate
basic, in aluminum-chrome combination tanning 132
Aluminum sulfate
in pickling of red hair sheepskins, leather strength in relation to 341
Amino acids
salts, leather waterproofing with silicone oil and 62
Amphoteric condensates
in retanning with syntans 60
Antibodies
reactions of, with collagen and elastin, in hide structure studies 93
Aspergillus flavus
proteases of, unhairing with 313

Bacteria
culture medium for, collagenase reactions with collagen in 96
BALASUBRAMANIAN, K., Biography 56
Bating
cleansing in, salt effect on 232
BATTLES, MALCOLM H.
retires as Editor of Journal 202
Beamhouse
pigskin processing in, standardization of 165
protein dissolution from split hides during processing in 131
Biodegradable matrix
crosslinked collagen as 62
Biotechnology
of methane production from tannery wastes 97
BOAST, DAVID, Biography 305
Bookbinding
leather, restoration of, in library historical collections 92
Calcium hydroxide
hair immunization by, drum process for 166
Calgon
in pickling of red hair sheepskins, leather strength in relation to 341
Carbon
activated, color removal from water by cationic polymers and 36
activated, in water decolorization 61
Castor oil
polyurethane coatings containing, isocyanate-terminated, 1-component 288
Cationomers
quaternized polyurethanes, for leather finishing 48

Celrad oligomer 6700
polymers with acrylates, finishes for patent leathers, radiation crosslinking of 65
CHATTOPADHYAY, BUDDHADEB, Biography 56
Chromatography, liquid
high-performance, of soluble compounds in leather 233
Chrome
precipitation of, in spent tanning liquors, by heating 168
removal of, from wastewater by precipitation with aluminum salts 233
in tanning wastewater 233
Chrome tanning
dry, basic principles of 168
exhaustion by Mannich bases in 313, 341
hide pretreatment for, with aldehyde acids or keto acids 30
new process for 234
of red hair sheepskins for glove leather 94
wastewater from, treatment of 272
Chromium
complexes, as dyes for leather 90
hexavalent, determination of, in soil leachates 110
use and toxicity of, in tanneries 272
Cleansing
in bating, salt effect on 232
Coating materials
ketone-containing, for collagen-containing materials 61
polymers, molecular structure-property relationships of 237
polyurethanes, isocyanate-terminated, 1-component 288
water-repellent, aqueous, wax-containing 29
Coating process
of footwear with polymer solutions, for waterproofing 35
Cobalt
complexes, as dyes for leather 90
Collagen
acylated, surfactants from 30
in bacterial culture medium, collagenase reactions with 96
coatings for materials containing, ketone-containing 61
crosslinking of, for biodegradable matrix 62
pepsin-soluble, from kangaroo skins, molecular structure-property relationship of .. 92
reactions of, with antibodies, in hide structure studies 93
viscoelastic solutions of, for ophthalmic use 34
Collagenase
reactions of, with collagen in bacterial culture medium 96
Color
matching of, computers in 184
Coloring
of sheepskin 224
of side leather 214
Computers
in color matching 184

COREY, BEVERLY F., Biography 278
Cotton
plants, tannery wastewater effect on 341
Crosslinking
of acrylated polyurethane finishes for patent leather, by electron beam or ultraviolet irradiation 65
of collagen, for biodegradable matrix 62
CROWTHER, JOHN C., Biography 200
Cyanamide
hide preservation with 33
DEANIN, RUDOLPH D.
Wilson Memorial lecturer 235
Decolorization
of water by activated carbon and cationic polymers 36
of water by activated carbon and cationic polymers and polysaccharides 61
Deliming
with sodium bicarbonate 93
DEQUING, WEI, Biography 86
Dibromosuccinic acid
polymers with polyethylene glycol and toluene diisocyanate, quaternized, for leather finishing 48
Dimethylamine
polymers, cationic, color removal from water by activated carbon and 36
Diphenylcarbazide
in hexavalent chromium determination in soil leachates 110
DONOVAN, ROSS G.
new Editor of Journal 202
DONMEZ, LISA ANN HERINGER, Biography 122
Dressing
of East India leather, stripping for 313
Drying
of calfskin by solvents, fiber adhesion in, acoustic emission spectroscopy of 257
of protein-containing sludge, apparatus for 58
Dyeing
of cowhide split leather 219
fast color, of leather, evaluation of hydrophilic-hydrophobic properties of dyes for 165
of leather and textiles with reactive dyes containing vinyl sulfonyl or chlorotriazinyl amino groups 30
of leather, by through-put process 232
of leather with metal complex dyes 90
of leather with mixtures of tetrakisazo and trisazo compounds 59
of small skins, ecological and economical aspects of 167
Dyes
anionic, dispersions of, with enhanced cold water solubility 58
chromium or cobalt complexes, for leather 90
hydrophilic-hydrophobic properties of, for fast color dyeing of leather 165
liquid, for leather 170

quality control of 204
symposium on 203
DUYVELAAR, H. G., Biography 20
Effluents, *See* Wastewater
Elastin
reactions of, with antibodies, in hide structure studies 93
Electron beam
crosslinking by, of acrylated polyurethane finishes for patent leather 65
irradiation with, hide preservation by 37
Enzymes
fleshing treatment by, for fat recovery 71
Epichlorohydrin
polymers, cationic, color removal from water by activated carbon and 36
Ethylenediamine
polymers, cationic, color removal from water by activated carbon and 36
Fastness
of dyed leather to migration and perspiration 180
Fatliquoring
of chrome leather with monoalkyl phosphates, waterproofness in relation to 95
Fats
recovery of, from fleshings by enzymic treatment 71
Feed
regulation of ingredients of, by Food and Drug Administration 245
Fermentation
of gallotannins, hydrolysis by 323
Fibers
adhesion of, in solvent-dried calfskin, acoustic emission spectroscopy of 257
Fillers
keratin, retanning with 94
Finishing
ecologically sound systems for 166
formaldehyde and solvent emission control in 167
with polyurethane cationomers 48
Fleshings
enzymic treatment of, for fat recovery 71
protein meal and tallow preparation from 93
Fluvic acids
removal of, from water by activated carbon and cationic polymers 36
Fogging
of windshields, lubricants in leather automobile interior effect on 166
FOGLIA, THOMAS A., Biography 86
Footwear
components, from leather substitutes, fungal growth in 95
leather working for uppers for 36
manufacture of, apparatus for 89
manufacture of, machines for 34
waterproofing of, by coating with polymer solutions 35

Formaldehyde
emission control of, in leather finishing 167
polymers with phenolsulfonic acid, syntans molecular weight distribution in 95
FUCHSMANN, ROLF DIETER, Biography 305
Fungi
growth of, in leather substitute footwear components 95
growth of, on leather, tanning effect on 234
in leather industry 131
Furs
preservation of, with cyanamide 33
rabbit, locational strength evaluation of 288
Gallotannins
hydrolysis of, by fermentation 323
Gaskets
for deep well foot valves, buffalo hide leather manufacture for 228
Gelatin
acylated, surfactants from 30
Gloves
leather manufacture for, from red hair sheepskins 94
Goatskin
dry-white hide preparation from, aluminum salts and syntans in 94
GRABER, GEORGE, Biography 278
Grease
removal of, from sewage systems, by proxeroninase treatment 58
GREIFENEDER, JOHANN (JOHN) G., Obituary 130
HART, RAYMOND, Biography 230
Health hazards
of chromium in tanneries 272
Heterocyclic compounds
of nitrogen, leather waterproofing with 30
Hides
dry-white, from goat- and sheepskins, aluminum salts and syntans in preparation of . 94
preservation of, with cyanamide 33
preservation of, with electron beam irradiation 37
pulling apparatus for, with head hold down 59
structure studies of, by antibody reactions with collagen and elastin 93
wet-blue, scanning electron microscopy grain images of 131
wet-whites, shaving of, variations in thickness obtained by 168
HIRSCH, RAYMOND, Obituary 130
Hogs
carcasses, splitting machine for 91
Humic acids
removal of, from water by activated carbon and cationic polymers 36
Hydrochloric acid
in deliming with sodium bicarbonate 93
Hydrolysis
of gallotannins by fermentation 323

Hydrophilic-hydrophobic property
of dyes for fast color dyeing of leather 165
N-Hydroxyethyloxazolidine
as syntan 313
Immunization
of hair by alkalies, drum process for 166
Insoles
two-layer, absorbent and capillarily conductive 89
Isodecyl acrylate
polymers with urethane oligomers, finishes for patent leathers, radiation crosslinking of 65
IULTCS
call for Papers for Twentieth Congress of 27
Kangaroo skins
leather from, physical properties of, comparison between species and sexes 133
leather from, physical properties of, variation with sampling position 143
pepsin-soluble collagen from, molecular structure-property relationship of 92
tanning and unhairing of, comparison of systems for 296
Keratin
fillers, retanning with 94
Keto acids
hide pretreatment with, for chrome tanning 30
Ketones
coatings containing, for collagen-containing materials 61
KRONICK, PAUL L., Biography 278
Lactate dehydrogenase
of *Upeneoides sulphureus* 313
Lamination
of shoe materials, machine for 28, 29
Lasting
machines for 28
Leather
bag and upper, manufacture of, by alum retanning of bag-tanned hides 288
bookbinding, restoration of, in library historical collections 92
buffalo hide, manufacture of, for deep well foot valve gaskets 288
chemical and fastness and physical test methods for 167
dyed, migration and perspiration fastness of 180
edging of, machine for 63
fungal growth on, tanning effect on 234
fungi in relation to 131
glove, manufacture of, from red hair sheepskins 94
kangaroo, physical properties of, comparison between species and sexes 133
kangaroo, physical properties of, variation with sampling position 143
kangaroo, physical properties of, tannage effect on 329
patent, manufacture of, radiation crosslinking in 65
physical testing of, review on 92
soluble compounds in, high-performance liquid chromatography of 233
upholstery, for automobiles, fogging by, prevention of 353

upper, from red hair sheep, strength of, pickling effect on 341
working of, for footwear uppers 36
Leather substitutes
footwear components from, fungal growth in 95
Letting out machines
for leather to be cut and sewn at seam areas, holders for 32
LIA
Address of President Charles S. Myers at 1989 ALCA Annual Meeting 281
Libraries
historical book collections in, restoration of leather bindings in 92
Lignin
removal of, from water by activated carbon and cationic polymers 36
Liming
re-, of pigskins 165
Lubricants
in leather automobile interiors, windshield fogging in relation to 166
Mannich bases
in chrome tanning, exhaustion improvement by 313, 341
Masking
in aluminum tanning 232
MERMET, ROLAND, Biography 122
Methacrylic acid
polymers with polyurethanes, as retanning materials 343
Methane
production of, from tannery wastes 97
Microscopy
scanning electron, of grain images of wet-blue hides 131
Moccasins
vamp stretching for, apparatus for 63
Molecular structure-property relationship
of pepsin-soluble collagen from kangaroo skins 92
in polymeric coatings 237
Molecular weight
distribution of, in phenolsulfonic acid-formaldehyde copolymer syntans 95
Monoalkyl phosphates
fatliquoring with, of chrome leather, waterproofness in relation to 95
MYERS, CHARLES S.
LIA President's Address at 1989 ALCA Annual Meeting 281
Napthalenesulfonic acid
in pickling of red hair sheepskins, leather strength in relation to 341
NEUMANN, GUNTER K., Obituary 382
Nitrogen
heterocyclic compounds of, leather waterproofing with 30
Notes for contributors 1

Odors
removal of, from sewage systems, by proxeroninase treatment 58
Ophthalmic solutions
containing viscoelastic collagen 34
Paint
spray gun for 62
Pancreatin
fleshing treatment by, for fat recovery 71
Paraffin waxes
in leather automobiles interiors, windshield fogging in relation to 166
PARTRIDGE, ROBERT
Fred O'Flaherty Service Award to 253
Pepsin
collagen soluble in, from kangaroo skins, molecular structure-property relationship of . 92
Perspiration
fastness to, of dyed leather 180
PETERS, DAVID E., Obituary 26
Petroleum ether
calfskin drying by, fiber adhesion in, acoustic emission spectroscopy of 257
Phenolsulfonic acid
polymers with formaldehyde, syntans, molecular distribution in 95
Phthalates
in leather automobile interiors, windshield fogging in relation to 166
Pickling
of red hair sheepskins, leather strength in relation to 341
Pigments
quality control of 204
symposium on 203
Pigskins
reliming of 165
SANEJOUAND, JEROME, Biography 122
Sewage systems
grease and odor removal from, by proxeroninase treatment 58
Shaving
of wet-white hides, variations in thickness obtained by 168
Sheepskin
coloring of 224
dry-white hide preparation from, aluminum salts and syntans in 94
red hair, glove leather manufacture from 94
wool removal from, by sulfides 36
SHENG, LI, Biography 86
Shoes
lamination of materials for, machine for 28, 29
manufacture of, lasting machines for 28
manufacture of, machines for 32

manufacture of, with full slip-on lasted construction 34
SHUYING, ZHANG, Biography 86
SEIGLER, DAVID, Biography 338
SEIGLER, MARCEL
President's Address at 1989 ALCA Annual Meeting 279
Silicones
oil, leather waterproofing with amino acid salts and 62
Sodium bicarbonate
deliming with 93
Sodium chloride
anaerobic digestion of wastewater in relation to 266
Sodium hydroxide
hair immunization by, drum process for 166
Soils
extenders for, tannery sludge conversion to 14
Solvents
calfskin drying by, fiber adhesion in, acoustic emission spectroscopy of 257
emission control of, in leather finishing 167
SOMERVILLE, IAN C., Obituary 382
Splitting machines
adjustment devices for 31
for hog carcasses 91
Polyampholytes
in tanning of small skins 166
Polyethylene glycol
polymers with dibromosuccinic acid and toluene diisocyanate, quaternized, for leather finishing 48
Polymers
as additives in retanning 5
cationic, in water decolorization 61
footwear waterproofing by coating with solutions of 35
Polysaccharides
in water decolorization 61

POURRAT, HENRI, Biography 338
PRABHU, R., Biography 381
Proteases
of *Aspergillus flavus*, unhairing with 313
fleshing treatment by, for fat recovery 71
Proteins
dissolution of, from split hides in beamhouse processing 131
meal, preparation of, from fleshings 93
sludge containing, drying of, apparatus for 58
Proxeroninase
in grease and odor removal from sewage systems 58
Quality control
of dyes and pigments 204

Quaternary ammonium compounds
polymers, color removal from water by activated carbon and 36
Rabbit
furs, locational strength evaluation of 288
RAMASWAMY, D., Biography 56
REGERAT, FRANCOISE, Biography 338
REIHSMANN, ROBERT M., Obituary 200
SAIKUMAR, C., Biography 381
Salt
cleansing in bating in relation to 232
Spray gun
for paint 62
SRINAVASAN, K. S. V., Biography 56
Stripping
of East India leather, for dressing 313
Sulfides
wool removal from sheepskins by 36
Surfactants
from acylated collagen or gelatin 30
Symposium
on dyestuffs and pigments in coloring leather 203
Synthetic tanning materials
in dry-white hide preparation from goat- and sheepskins 94
hydroxyethyloxazolidine as 313
phenolsulfonic acid-formaldehyde copolymers, molecular weight distribution in 95
Tallow
preparation of, from fleshings 93
Tanning
with aluminum and titanium salts 28
aluminum-chrome combination, basic aluminum sulfamate in 132
aluminum or chrome or vegetable, kangaroo leather physical properties in relation to . 329

fungal growth on leather in relation to 234
of kangaroo skins, chrome vs. vegetable 296
mineral, review on 313
re-, of bag-tanned hides with alum, for bag and upper leather 288
re-, of chrome leather with acrylic polymers 79
re-, polymeric additive for 5
re-, with keratin filler 94
re-, with syntans, amphoteric condensates in 60
of small skins, polyampholytes in 166
wastewater from, chrome in 233
wastewater from, cotton plant physiology in relation to 341
Tanning materials
from *Acacia* bark 315
re-, polyurethane methacrylates as 343

Tannins
in *Acacia* bark 315
removal of, from water by activated carbon and cationic polymers 36
Taxonomy
of *Therapon jarbua*, LDH profiles of tissues in 313
Testing of materials
chemical and fastness and physical, of leather 167
physical, of leather, review on 92
Textile printing
with reactive dyes containing vinyl sulfonyl or chlorotriazinyl amino groups 30
THAYER, PHILIP, Biography 278
Therapon jarbua
taxonomy of, LDH profiles of tissues in 313
Titanium salts
tanning with aluminum salts and 28
Toluene diisocyanate
polymers with dibromosuccinic acid and polyethylene glycol, quaternized, for leather finishing 48
Toxicity
of chromium in tanneries 272
TRAJSTMAN, ALBERT, Biography 305
Ultraviolet light
crosslinking by, of acrylated polyurethane finishes for patent leather 65
Unhairing
by hair burning, apparatus for 60
hair-saving drum immunization by alkalies in 166
of kangaroo skins, conventional vs. Sirolime systems for 296
one-bath vs. two-bath systems for, grain quality of leather in relation to 289
with proteases of *Aspergillus flavus* 313
Upeneoides sulphureus
lactate dehydrogenases of 313
Upholstery
leather, for automobiles, fogging by, prevention of 353
Urethane polymers
acrylates, finishes for patent leather, radiation crosslinking of 65
cationomers, synthesis and leather finishing with 48
coatings, isocyanate-terminated, 1-component 288
footwear components from, fungal growth in 95
methacrylates, as retanning materials 343
Uvithane 892
polymers with acrylates, finishes for patent leather, radiation crosslinking of 65
Valves
foot, for deep wells, gaskets for, buffalo hide leather manufacture for 288
Vamp
stretching of, for moccasins, apparatus for 63
N-Vinyl-2-pyrrolidone
polymers with acrylated polyurethanes, finishes for patent leathers, radiation crosslinking of 65

Wastes
chromium in, disposal and health hazards of 272
fleshings, enzymatic treatment of, for fat recovery 71
landfills for, hexavalent chromium determination in leachates from 110
methane production from 97
Wastewater
from tanneries, cotton plant physiology in relation to 341
from tanning, chrome in 233
Wastewater treatment
anaerobic digestion, sodium chloride effect on 266
chrome precipitation, from spent tanning liquors by heating 168
chrome removal, by precipitation with aluminum salts 233
chromium management in 272
sludge, conversion of, to soil extenders 14
sludge, protein-containing, drying of, apparatus for 58
Water
decolorization of, by activated carbon and cationic polymers 36
decolorization of, by activated carbon and cationic polymers and polysaccharides ... 61
Waterproofing
of footwear, by coating with polymer solutions 35
of leather, wax-containing aqueous coatings for 29
of leather, with amino acid salts and silicone oil 62
with nitrogen heterocyclic compounds 30
Waterproofness
of chrome leather, monoalkyl phosphate fatliquoring effect on 95
Waxes
coatings containing, aqueous, for leather waterproofing 29
Wells
deep, foot valve gaskets for, buffalo hide leather manufacture for 288
Windshields
fogging of, lubricants in leather automobile interior effect on 166
Wool
removal of, from sheepskins by sulfides 36
